

The wait was worthwhile. We finally have the *HAF/80th Anniversary Special Edition* pictorial book by [Special Projects](#) [Sp](#)

in hand. A brand new pictorial book that is available starting 26th of April in order to commemorate the 80th anniversary since the establishment of the Hellenic Air Force.

The

HAF / 80 YEARS

book has 160 pages containing 164 color photos and 16 aircraft profiles. It is available in softcover and in a limited edition of only 200 pieces

with hardcover. We have to say that the hardcover version of the book comes signed by the author

Mr. Antonios Tsagkaratos

. In order to achieve this fine result which is characterized by integrity, creativity and uniqueness Mr. Tsagkaratos made numerous visits to Hellenic Air Force air bases and took place in specially designed flights over several months.

In *HAF / 80 YEARS* book all the weapons of Hellenic Air Force are presented in detail through compelling images overflowing with adrenaline something that makes the reader feel that flies over the Greek skies on the wings of the Hellenic Air Force. Each type of aircraft, each Combat Wing, Squadron and aircraft operation has its own special place within this publication and

presented in a way that has never been attempted in the past! Under the guarantee of top quality publications of **Special Projects** , photo album *HAF / 80 YEARS* is a special edition worthy of adorning the library of every friend of Aviation in general.

At last but not least we have to indicate that the prologue of the book was recited by Hellenic Air Force Chief Commander, [Lieutenant General Vasilios Klokozas](#) . For detailed information about the book please visit Special Projects web-site:
